<https://du.lv/en/research/institutes/institute-of-life-sciences-and-technologies/issued-journal/acta-biologica-universitatis-daugavpiliensis/acta-biologica-universitatis-daugavpiliensis-archives/>

Acta Biologica Universitatis Daugavpiliensis publishes original papers and reviews on biodiversity and conservation biology.

Manuscripts should be sent by e-mail to the Editor-in-chief.

Acta Biologica Universitatis Daugavpiliensis is published two times a year by Daugavpils University Academic Press “Saule”, Daugavpils, LATVIA (<https://du.lv/en/research/institutes/institute-of-life-sciences-and-technologies/issued-journal/acta-biologica-universitatis-daugavpiliensis/>).

Acta Biologica Universitatis Daugavpiliensis is indexed/abstracted in *WEB OF SCIENCE (BIOSIS Previews, Zoological record)*; *CAB INTERNATIONAL: CAB Abstracts, Forest Science Database, AgBiotechNet, Animal Science Database, VetMed Resource, Leisure Tourism Database*.

Editor-in-chief:

Arvīds Barševskis, Daugavpils University, LATVIA (active 2001-2010)

Inese Kokina, Daugavpils University, LATVIA (active 2016-2021)

Anna Mežaka, Daugavpils University, LATVIA (active since 2022). E-mail: anna.mezaka@du.lv

Associate editors-in-chief:

Linās Balčiauskas, Nature Research Center, LITHUANIA

Arvīds Barševskis, Daugavpils University, LATVIA

Inese Kokina, Daugavpils University, LATVIA

Associate editors:

Dmitry Telnov, Natural History Museum, UNITED KINGDOM, entomology, coleopterology

Alexandre Anichtchenko, Daugavpils University, LATVIA, entomology, systematics, taxonomy

Pēteris Evarts – Bunders, Daugavpils University, LATVIA, botany, systematics, vascular plants, dendrology, plant invasions

Analy N. A. Cabras, University of Mindanao, PHILIPPINES, tropical biodiversity, coleopterology

Muza Kirjušina, Daugavpils University, LATVIA, parasitology

Milton N. Medina, University of Mindanao, PHILIPPINES, tropical biodiversity, coleopterology

Digna Pilāte, Latvian State Forest Research Institute “Silava”, LATVIA, mollusc fauna, biology and ecology

Agnese Priede, Latvian Botanical Society, LATVIA, vegetation, plant community classification, nature conservation, plant ecology

Isaac Rashal, University of Latvia, LATVIA, genetics, evolutionary biology

Alexey Shavrin, Daugavpils University, LATVIA, taxonomy, Coleoptera

Ave Suija, University of Tartu, ESTONIA, lichenology

Ingrida Šaulienė, Šiauliai Academy, Vilnius University, LITHUANIA, plant physiology, aerobiology, plant conservation

Pavel Širka, Technical University in Zvolen, SLOVAKIA, ecology, community ecology, bryology, botany

Vytautas Tamutis, Vytautas Magnus University, LITHUANIA, fauna and ecology of Coleoptera, Agricultural Entomology

Francesco Vitali, Luxembourg National Museum of Natural History, LUXEMBOURG, coleopterology, fossil entomology

Registration No. 000702629, Registration certificate No. M 1072

NOTES FOR AUTHORS

“*Acta Biologica Universitatis Daugavpiliensis*” is International peer-reviewed scientific journal that publishes original papers, review papers or short communications on biodiversity and conservation biology with a priority studies from Eastern Europe, which are interesting to International scientific community readership.

“*Acta Biologica Universitatis Daugavpiliensis*” is encouraging to submit manuscripts as original research (up to 30 pages of A4 format), reviews (up to 6 pages of A4 format) or short communications (up to 6 pages of A4 format). Longer manuscripts can be accepted for the revision as an exception, if authors can explain such necessity to journal editor-in-chief before manuscript submission.

Faunistic, floristic and mycological papers should include information about the distribution of the studied species, the distribution of the newly found ones. The authors are kindly requested to respect and follow the recommendations and requirements of “The International Code of Zoological Nomenclature” and “International code of nomenclature for algae, fungi, and plants (Shenzhen code)”.

Manuscripts need to be written in clear **English** and sent by e-mail to the journal’s editorial board: papers@biology.lv. Every article, picture or table should be sent as a separate file. Format requirements: **MS Word, Font: Times New Roman, 10, Line spacing: single (1), the blank line between paragraphs, no first-line indent**.

All manuscripts submitted are reviewed by at least two anonymous experts (reviewers). Based on the reviews, manuscripts will be considered in one of five categories: accept, minor revision, major revision, reject with resubmission or reject. Accepted manuscripts are sent to the authors for proofreading. Manuscripts, which are written in inadequate English, containing outdated or irrelevant information, or failed to meet the author guidelines will not be accepted for publication.

Manuscripts are recommended to be structured in sections: **Title, Authors full name, Abstract** (no more than 300 words without spaces in English, **Keywords** (not exceeding the line’s length), **Author’s information** (affiliations, full addresses, email address of corresponding author), **Introduction, Material and Methods, Results, Discussion, Conclusions, Acknowledgements, References, Supplementary material** (optional). Please follow the latest issue of the journal for manuscript formatting.

In the text, quotations should follow one of the models below: **A. Barševskis (1999), (Barševskis 1999), (International ... 1985), (Telnov & Kovalevsky 1996, Telnov et al. 1997)**. All the sources referred to in the text must be included in the References in alphabetical order, by the author’s surname (s) or by the title (the first, second, third and so on letter of the title).

Sub-titles in the paper should be separated by two intervals from the previous text, and by one interval from the following text.

They should not numbered or marked in any other way. A sentence case is used for them.

The scientific names of species and genera are written in *italics* both in the text and in the paper title, whereas in the Reference entry, normal characters must be used. Names of authors and the year of taxa description should be written in sentence case everywhere in the text. Abbreviations, which are not commonly known, must be explained. The scientific name of a species or genus is to be followed by a full name of its author and the year of its description E.g.: *Notiophilus aquaticus* (Linnaeus, 1758) or *Notiophilus germinyi* Fauvel, 1863.
